The Hiring Manager
Bruker Corporation
Shanghai

**Re: Service Engineer
Greeting Hiring Manager of Bruker:**

I am writing to reply to this service engineer that found on Glassdoor. I am confident that my skills can become an invaluable asset to your corporation.

As an electrical engineering graduate from York University, I possess excellent verbal and written skills in English as well as professional knowledge in electronics drawings and technical manual. Over the past 2 years, I have been working in BioSA laboratory providing test and characterization support for bioelectronics. During this time, I accumulated a considerable amount of knowledge regarding analytical instruments, and my most recent project is about the micro-coil for NMR. Finally, my unparalleled MATLAB and python ensure my ability to extract, organize, analyze, and summarize data.

As elaborated, I believe I am a perfect fit for this position. Please don't hesitate to contact me should you interested in my service. I am looking forward to your reply.

Yours sincerely,

Owen Qiao
